

Certified Medication Aide

[Facility name] is looking for a certified medication aide to work at our beautiful lakeside campus. Consistently ranked within the top 10 best hospitals in the state, our teams understand how to deliver consistent, high quality, and patient-centered care. If you would like to join our lively and collaborative network of healthcare professionals, we welcome you to apply.

Under the direction of a licensed nurse, the certified medication aide administers oral and topical medications to assisted living residents. The medication aide must follow the five rights of medication administration while following provider's orders for scheduled and PRN medications. This role is also expected to help with activities of daily living (ADLs) such as assisting residents with meal setup, dressing, and bathing.
