

Hospital Case Manager

[Facility name] is looking for an experienced RN who can help coordinate care services at our downtown inpatient hospital. As a case manager, you'll play a vital role in ensuring that each patient's needs are met alongside a talented, interdisciplinary team of professionals. *[Facility name]* is committed to both our patients and employees. We offer a generous benefits package and foster a healthy work environment to ensure that you can succeed in your role. If you're interested in working at a place where you feel supported while you make a difference in the community, we'd like to hear from you!

Benefits

- Health, dental, and vision insurance
- Retirement plan options, with employer matching
- 14 days PTO and paid holidays
- Tuition reimbursement for ADNs working toward their BSN
- Life insurance

Duties and Responsibilities

- Collaborate with the patient, family, and multidisciplinary care team to ensure safe, cost-effective, and efficient inpatient care
- Evaluate the appropriateness of patient treatments and facilitate any changes in collaboration with the rest of the care team
- Support, educate, and act as a resource for all nurses and members of the care team
- Help research, develop, and maintain effective patient care standards and protocols
- Evaluate patient and family needs for consultation with other healthcare specialists
- Assess discharge needs and ensure discharges are carried out in a timely manner
- Ensure that comprehensive information is documented throughout the patient's hospital stay and made available to team members as appropriate
- Collaborate with all hospital departments to streamline care services and monitor the utilization of resources
- Prepare written reports and oral presentations of healthcare utilization and cost-effectiveness data as requested

Compensation and Schedule

- Pay range: \$40-\$50/hour
- Full Time, 8 a.m. – 5 p.m.
- Location: *[insert city, state]*
- Option for hybrid schedule (3 days on-site, 2 days remote)

Skills and Qualifications

- Graduate from an accredited nursing school (ADNs will be required to earn a BSN within 5 years of hire)
- Active RN license in the state of *[insert state]*
- At least 3 years of relevant clinical or managerial experience required
- Healthcare [case management certification](#) preferred
- Knowledge of Medicare/Medicaid and regulatory guidelines preferred
