

# Family Nurse Practitioner

[*Facility name*] is looking for an experienced and highly-skilled family nurse practitioner to join our dynamic advanced practice provider team. For more than 20 years, we've been trusted by patients and families to deliver comprehensive, person-centered primary care.

Located adjacent to our sister hospital organization, our practice has been consistently recognized for clinical excellence and patient satisfaction, earning multiple Patient Choice Awards from local publications in recent years. We're looking for an FNP who is committed to helping us maintain this legacy of optimal patient outcomes and exceptional service.

## Benefits

- Medical license, DEA, and malpractice coverage
- Regular provider meetings for ongoing learning, development, and collaboration
- Health, dental, and vision insurance
- Employer-funded HSA/FSA
- Life/disability coverage
- 401(k) retirement options with employer matching
- 18 days paid time off (PTO), with sick days and paid holidays
- Parental leave and adoption assistance
- Relocation Assistance

## Duties and Responsibilities

The family nurse practitioner will:

- Provide holistic, comprehensive primary care that addresses acute patient needs, chronic disease management, and preventative health maintenance.
- Develop and oversee person-centered patient care plans.
- Collaborate with team members to ensure optimal service delivery.
- Educate patients and families to engage them in pursuing optimal health outcomes.
- Assist the physician team where necessary to maintain smooth patient flow.
- Actively participate in facility-based quality initiatives and data collection.
- Pursue ongoing professional development and the latest evidence-based care strategies through regular provider journaling opportunities and conference attendance.

## Compensation and Schedule

- Salary ranges from \$105,000 - \$115,000 per year, depending on experience
- Full time (40 hour FTE)
- Monday-Friday from 8:30 am - 5:00 pm
- Location: On site at [insert address, city, state]

## Skills and Qualifications

- A master's or doctorate degree from an accredited Nurse Practitioner program
- An unencumbered, active Nurse Practitioner License from [*state name*]
- Minimum of 5 years clinical experience and at least 1 year of prior experience as an FNP
- Basic Life Support (BLS) certification
- Neonatal Resuscitation Program (NRP) certification
- Pediatric Advanced Life support (PALS) certification
- *Preferred:* prior experience charting in EPIC electronic health records
