

Kate Swanson, FNP, RN

West Palm Beach, FL | firstlast@email.com | 111-222-3344

Board-certified FNP with 4 years of experience in community health and a strong background in progressive care. Chronic disease management and preventive care educator. Recognized with patient satisfaction awards for 3 consecutive months.

Key Qualifications

- Expert in managing complex chronic conditions, including diabetes, hypertension, COPD, and endocrine disorders.
- Experienced in medication management, integrating evidence-based complementary approaches for symptom control and long-lasting disease remission.
- Proficient in comprehensive physical exams, differential diagnoses, and treatment planning.
- Competent in performing a wide range of procedures, including suturing, abscess drainage, and joint injections.
- Skilled in patient education for disease management, medication adherence, and lifestyle modification.

Education

Florida Atlantic University, Boca Raton, FL, 20XX

Bachelor of Science in Nursing

GPA: 3.8/4.0

Florida Atlantic University, Boca Raton, FL, 20XX

Master of Science in Nursing

GPA: 3.9/4.0

Professional Experience

Palm Community Health Clinic, Family Nurse Practitioner, 20XX–present

- Managed an average panel of 1,500 patients in a community health clinic, delivering comprehensive primary care services.
- Improved follow-up compliance by implementing structured patient tracking and call-back systems for patients with chronic diseases.
- Adjusted treatment plans based on patient response, lab trends, and clinical progression to improve long-term health outcomes.
- Led preventive care initiatives and community education classes focused on disease-specific lifestyle modification and early detection of warning symptoms.

Beach Hospital, Progressive Care Registered Nurse, 20XX–20XX

- Provided direct care for 4–5 high-acuity patients per shift in a telemetry-based progressive care unit.
- Administered high-alert medications including beta-blockers, heparin, and insulin drips while closely monitoring hemodynamic response and lab values.
- Responded to rapid response events to stabilize patients experiencing acute changes in condition.
- Collaborated with physicians, cardiologists, and interdisciplinary teams to adjust treatment plans based on patient response.

Skills

- Comprehensive history taking and advanced physical examination
- Differential diagnosis formulation for complex co-existing conditions
- Point-of-care testing
- Polypharmacy management
- Complementary interventions for symptom management
- Telehealth consultations and virtual patient monitoring
- EMR proficiency: Epic, Cerner, and Meditech
